SYNTRICITY NAMES CLARA LEONIDA AS CFO

SAN DIEGO, CALIFORNIA, NOVEMBER 15, 2005 – Syntricity, Inc., a provider of enterprise yield management (EYM) software for the semiconductor industry, has appointed Clara Leonida as chief financial officer (CFO) for the company. Prior to joining Syntricity, Leonida was CFO for Z Microsystems. Her diverse background in finance and accounting includes director of finance and medical economics for FHP Healthcare (now PacifiCare), controller for Braun Thermoscan, cost accounting manager for Brooktree (now Conexant), and accountant for Applied Micro Circuits Corporation (AMCC).

"Syntricity has experienced considerable growth in the past year, and we expect this rate to continue for the next several years," said Marc Friedmann, Syntricity president and CEO. "Clara's experience in finance, treasury, accounting and contracts management will help us smoothly transition to become a larger enterprise."

Leonida is a certified public accountant (CPA) and holds a BA in Accounting from the University of West Florida, a BA in Economics from the University of Illinois, and an MBA from San Diego State University.

About Syntricity, Inc.

Syntricity is the pioneer in enterprise yield management. Its yield management software is used by leading semiconductor companies, test vendors and wafer foundries to gather, manage and analyze data from facilities around the world to improve yield, reduce product development cycles, and increase profits. A privately-held company, Syntricity is headquartered in San Diego, California.
