FOR IMMEDIATE RELEASE

SYNTRICITY ANNOUNCES THAT BROADCOM HAS SIGNED ON FOR ADDITIONAL 25 SYNTRICITY dataConductor® USER LICENSES

SAN DIEGO, CALIFORNIA, September 4, 2002 – Syntricity announced today that Broadcom Corporation, the leading provider of integrated circuits enabling broadband communications, has expanded its use of Syntricity's dataConductor® data management analysis and reporting tools for semiconductor yield improvement with the addition of 25 more user licenses.

Syntricity dataConductor is used by leading fabless and IDM semiconductor companies to improve yield, accelerate time to market, facilitate better collaboration and institute best practices across the semiconductor design chain.

Vahid Manian, Vice President of Operations for Broadcom, commented on the expansion; "We have used Syntricity's dataConductor since 1999 and helped influence its direction. We have confidence that Syntricity's dataConductorEP architecture will continue to support our engineering database and analysis needs as we grow our product line and manage our development and supplier organizations around the world."

According to Jeff Teza, Syntricity Chairman and CEO, Broadcom's decision to widen its use of Syntricity dataConductor is an affirmation of the tool's capacity to positively impact clients' bottom line. "Broadcom is a leader in all of its markets and represents some of the best practices in the semiconductor industry." Teza said today. "Its increasing use of dataConductor is a great vote of confidence that we are making our customers more efficient, more productive, and more profitable enterprises."

About Syntricity:

Syntricity Inc. (<http://www.syntricity.com>) provides enterprise-wide, Web-native software and services for semiconductor yield improvement. A privately held company, Syntricity's key customers include Agilent, AMCC, Broadcom, Cirrus Logic, Conexant, Legerity, Micron, Motorola, Qualcomm, Silicon Labs, Sun Microsystems, and Tundra. Syntricity is headquartered in San Diego, California, and maintains sales offices in Newport Beach, California; San Jose, California; Baltimore, Maryland; Austin, Texas; Japan and Taiwan.

For more information, contact Syntricity Inc., 6020 Cornerstone Court West, San Diego, California 92121; Tel: (858) 552-4485; Fax: (858) 552-4493. Or visit <http://www.syntricity.com>.
